

Technical background: GEERT HURCKMANS, Managing Project Engineer

Degree: Chemical Engineer, Rijksuniversiteit Gent, 1990

Thesis: Hydrodesulphurisation of light petroleum fraction on a Cobalt – Molybdenum Catalyst

I.P.S. references (Major Projects):

Year	Customer	Project	Description
1997 - 1999	Ekostahl Eisenhüttensta dt Germany	Construction of a hot dip steel galvanization plant – Budget 110 Mio Euro	Overall coordination of procurement and construction Overall and contractual time scheduling and tracking Supervision of layout engineering
1999 - 2000	Stahlwerke Bremen Germany	Construction of a hot dip steel galvanization plant – Budget 55 Mio Euro	Coordination and time scheduling of site construction and commissioning Scheduling of workshop fabrication of the mechanical equipment Recovery of 3,5 Months delay from start of mission till end of erection
2000 - 2002	Corus Duffel Belgium	Construction of a continuous aluminium annealing line – Budget 55 Mio Euro	Overall coordination of procurement and site construction Overall and contractual time scheduling and tracking Layout engineering and definition basic plant engineering Procurement and follow up of technological steel structures, control rooms
2002 - 2005	Arcelor Charleroi Belgium	Construction of an integrated stainless steel production plant – Budget 241 Mio Euro	Overall coordination of procurement and construction Overall and contractual time scheduling and tracking
2005 - 2006	Carsid Charleroi Belgium	Revamp of a power plant – Budget 12 Mio Euro	Procurement of all main activities – Boiler revamp – piping - turbine revamp – electrical installation HV, MV and LV – automation – other plant components
2006	Corus Duffel Belgium	Revamp of an aluminium melting furnace	Procurement of furnace revamp
2006	Companhia Siderurgico do Atlantico Rio de Janeiro Brasil	Construction of an integrated carbon steel production site with 2 blast furnaces, coke plant, power plant, steel making plant, 2 cont. casters, sinter plant, water treatment facilities and gas mixing and air separation plants	Overall and contractual time scheduling for the balance of plant Overall project time schedule
2006 - 2009	GSKbio	Construction of an integrated vaccine filling site,	Contract manager Tender preparation, Negotiation of major contracts, Contract Establishment, Interface

budget 500 Mio Euro including lyophilized filling production plant, liquid vial & syringe filling production plant, power plant, clean utilities production, logistic centre with packaging, shipping/receiving and automatic warehouse, administrative building and restaurant

Coordination between different contracts

Supervision of Project Controls Team including cost controller, schedule supervisor & document controller

Professional experience:

<i>Year</i>	<i>Company : Project</i>	<i>Position / Occupation</i>
1992	Clean Air Engineering Inc	Project manager for several small projects in the field of gas and emissions monitoring, Belgium, France, UK, Italy, Mali (W-Africa)
-		
1997		Field service engineer
1992	Clean Air Engineering Inc. Illinois, USA	Training in continuous emissions monitoring

Languages: Dutch, English, French, Spanish, German (fluent)
Portuguese (Basic)
Italian (Notion to basic)

Based in: Belgium

Computer skills:

MS Project, MS Word, Powerpoint, Excel, Vectorworks
Basic skills in Agora groupware, Lotusnotes, Outlook, Outlook Express
