IPS operational unit(s)

- IPS Germany GmbH

Constellium Singen GmbH has over 1.300 employees and develops, manufactures and distributes aluminium specialty sheets and coils, extruded products, automotive components and systems. With a surface area of over 525.000 m2 the Singen plant represents one of the largest sites within Constellium.

One goal of the project is the modernization of the integrated hot/cold rolling line and associated equipment within the line.

Planned measures cover various topics from electrics and automation to mechanics, fluids and civil works.
