Increase of Actimel Production Capacity

DANONE NV, Belgium, 03/2008 - 01/2009

FOOD AND BEVERAGES

PROJECT REALIZATION | BELGIUM

Groupe Danone is a global producer of fermented dairy products. For its plant in Rotselaar (Belgium), it was decided to increase the production capacity in order to cope with the rising demand in the market for the Actimel© product.

Actimel© is produced from different raw ingredients in ten stages. Danone wanted to increase the capacity of Actimel production by 20%. In order to meet this production capacity, several new installations were put in place and old installations were removed.

Principal project data

Increase of Actimel production capacity New installations:

- CIP-installation
- storage tanks for concentrated milk and dissolved sugar
- new mixing tanks
- new sterilisers
- fermentation tanks, a cold homogeniser and a cold storage tank
