

Puratos Group provides innovative ingredients and tailor made solutions to the bakery, patisserie & chocolate sectors. With 53 plants in 69 countries and about 6.800 employees. Puratos is one of the major supplier in this industry. The headquarters are located in Groot-Bijgaarden, Belgium.

Group Puratos intended to build a new R&D center at the Groot-Bijgaarden in the way that consolidate their activities and to reinforce their collaboration between all units. By the end, Puratos wants this new building to resemble management of facilities.

IPS developed several propositions concerning the design of the new building as well as the renovation of an existing building in a way that enables them to install a new R&D center.

Puratos decided to buy a new field, to demolish the old building and to build a new one.

This includes :

- 5000m² on 2 floors
- 2000m² of laboratory areas (analyses area, sampling, filling, bakery, patisserie, chocolate,...)
- 150 parking spaces
- Offices for 170 employees

New R&D Center

Principal project data

New R&D center for bakery, patisserie & chocolate sectors.

- Surface 9000 m² (3000m² parking and 6000 m² labs and offices)
- Budget 15,4 Mio Euro

Scope IPS

Project Feasibility

- Feasibility Study

Project Preparation

- Basic engineering
- Architectural design
- guidelines for sustainable development
- Master plan coordination

Project Execution

- Project management
- Construction management
- Follow-up detailed engineering
- Health & Safety coordination
- Moving of equipment etc

■ One pilot production line

IPS operational unit(s)
