

Montupet is a leading European company in moulding aluminum parts designed for the automobile industry. The company is planning a new production plant in Changzhou, a rising modern industrial city north-west of Shanghai.

Montupet is planning to open a new factory in Changzhou in 2008 to be able to meet the demands of its customers. The new site will produce different types of cylinder heads designed for the automotive industry.

In the first phase, the plot of 40.000sqm will include the following:

- Production area
- Office area on two floors
- Storage area
- Parking for about 100 cars
- Access to bus station
- Double entrance for logistics

New Production Site

MONTUPET, China, 12/2007 - 07/2008
