PROJECT REALIZATION

GERMANY

Principal project data

Green-field plant for pre-products used in the photovoltaic industry.

Duration: 12 Month

Surface: 11.425m²

Size: 3.920m

Scope IPS

Project Preparation

- Layout
- Site planning
- Technological planning
- Building Permit
- Procurement / Tendering

Project Realization

- Project management
- Layout / Administration
- Time schedule
- Budget
- Site management
- Safety
- Documentation
- CE Certification
