Liquid Gas Plant

SOL s.p.a., Germany, 05/2007 - 07/2009

CHEMICALS | LIFE SCIENCES | PROJECT PREPARATION | PROJECT REALIZATION | GERMANY

SOL Group, founded in1927 at Monza, Italy, is engaged in the production, applied research and commercialisation of industrial, purified and medical gases as well as its application in home care and welding technologies. The company employs 1.500 people worldwide and supplies more than 40.000 customers.

The newcryogenic liquid gas plant in the industrial area of "Frankfurt-Hoechst" is a part of SOL's expansion strategy. Most modern technologies were applied respecting highest environmental standards and efficiency levels.

Principal project data

New cryogenic liquid gas plant for production and storage of liquid oxygen and nitrogen.
Investment: 15 Mio €

Scope IPS

Project Preparation

- Layout preparation
- Architecture design of the building
- Procurement / contracting for building
- Procurement / Contracting for transformer / substation
- Realization engineering

Project Realization

- Project coordination
- Time schedule
- Layout, Health and Safety, site coordination

IPS operational unit(s)

- IPS Germany GmbH
